Swiss Vans carry the largest stock and has the best deals on Berlingo Crew Cabs in Europe

Swiss Vans save thousand on crew cabs

Best prices in UK guaranteed

Typically a Citroen Dealer will have to factory order a Crew Cab as they are time consuming to convert.

Best stock Guarantee

Swiss pre order their vehicles 12 weeks in advance which means you don't have to wait, or that factory order times are reduced.

UK vehicles with UK guarantees

3 years guarantee

3 years roadside assistance

CITROEN BERLINGO CREW VAN

The Citroen Berlingo Crew Cab seats 5. Its is based on a L2 so benefits from twin side load doors; 90 PS engine upgrade, SATNAV, electric windows, folding rear bench and mesh bulkhead. The vehicle is easily adapted for a variety of people and load carrying situations.

L2 CHASSIS AS STANDARD

The designers only make Berlingo Crews based on the longer L2 chassis, which means there is space for 5 plus a load area behind them. Passengers have two sliding doors, and the fact that windows are an option, ensure this van is still classified as a van for VAT and not a car. The van is based on the bestselling Citroen Berlingo van, which arguably is the best small van on the market.

Twin side load doors as standard to ease access to rear

Compact size van with optional side windows hence VAT friendly

REAR LOAD AND BULKHEAD

The rear load area is vast and looks special. Quick release tabs convert the vehicle with a simple throw, allowing much larger loads to be carried when the rear seats are folded. When passengers use the van, they are safe behind a factory fitted steel mesh bulkhead. Safety is a major factor so vehicle naturally has ABS and EBS as standard.

Generous rear load area thanks to L2 chassis as standard

Easily folded rear bench seats plus a steel mesh as standard

MODERN INTERIOR AND SATNAV

The interior is styled ergonomically with plenty of vents and stowage behind a PAS wheel with an airbag. The dash is very car like and easy to live with. Every crew cab gets a SATNAV and stolen vehicle tracker combined, which is easily removable for security.

Modern dashboard with airbag, ABS, power steering

SATNAV and Trackmaster as standard on every van
