

TRANSPORTER SPORTLINE

From Swiss Vans and Vansales.com

21ST CENTURY ICON

VOLKSWAGEN VANS

The first Transporter Sportline was introduced into the UK in 2006.

Since then it has not only sold in its thousands but created a wave of copies and lookalikes.

They hold their value better than almost any other vehicle.

This van boosts the resale value of every other Volkswagen van.

It yielded a UK phenomenon which is the Sports and Surfer van market.

A Sportline will always encompass performance and good looks and the 2011 Sportline is no exception.

Today's version has been adapted with Euro 5 engines for lower emissions and more MPG.

Better leather seating with just two front seats and more subdued chrome front and side.

All vehicles are T32 for maximum payload, all with tailgates as more popular.

Even now a 7 speed DSG automatic gearbox option.

As always the suspension is lowered for a slightly better handling ride.

Ask about the Free Service offer for 2011 as you may qualify.

KENWOOD TECHNOLOGY PACK

The unit is designed for Volkswagen vans and fits snugly into the dashboard. As standard a 7" colour touch screen with DVD, 36 country SATNAV, IPOD friendly, and most of all bluetooth for your phone. It integrates with the multifunction steering wheel.

Add a lead and you can power your iPhone or iPod and access your tracks on the move.

The SATNAV is 3D with most of Europe and reacts far quicker than say a TOM TOM due to an external aerial lacking from so many vehicles.

The bluetooth comes complete with a microphone wired in so you can be heard clearly.

The internal workings are made by Parrot a leader in Bluetooth for phones.

SPORTLINE

AIRCON
LEATHER SEATS
METALLIC BLACK, SILVER OR
ICE WHITE UPGRADE
KENWOOD SATNAV AND CD PLAYER
ABS, EBD, TCS
SIX GEARS OR AUTO
TWIN TURBO 180 PS DIESEL

EBC ENGINE BRAKING

OPTIONAL BULKHEAD

Now you can have a bulkhead even on the Kombi versions

Nam# 110

Pulvinar 35.00

NEW TWIN TURBO ENGINE

New Euro 5 engine with 180 PS with the lowest emissions and best fuel economy ever

STAINLESS STEEL

Just like the previous models all Transporter Sportlines come with the obligatory chrome

EMISSIONS AND ENVIROMENT

The 180 engine is class leading at 205 gCo2/ per KM
Volkswagen has invested 20 Mill € in Salzgitter Germany to investigate VW Sicon process that recovers 70,000 tones of sand, fluff and fuel substitute rather than use landfills.

FUEL CONSUMPTION

The 180 PS engine is designed to give you a smaller fuel consumption.

Manual - 28/42/36 with 205 g/KM co2

DSG - 27/40/34 with 214 g./KM co2

PERFORMANCE

Increasing pressure over exhaust gases has changed the way engines are designed. The most modern engines get more power out of smaller units thus the Transporter Sportline uses a Twin Turbo 180 PS engine as standard, six speed, with an optional DSG gearbox as a special order.

Manual 0 - 62 9.9 seconds 119 Top speed

DSG 0 - 62 10 seconds 119 Top speed

VOLKSWAGEN CARE

Every new Volkswagen van sold in the UK comes with 3 years Volkswagen Roadside Assistance.

Benefits

Roadside assistance

Assistance at Home or work

Recovery

TRANSPORTER SPORTLINE OPTIONS

There are very few options on a Transporter Sportline
Some common questions and answers

- There are two front seats
- You cannot have barn doors but you can have a solid or glass tailgate
- You cant have a 4x4 Kombi but we can hand make one but it is more expensive like most handmade items
- The rear seats are removable in the Kombi
- A bulkhead can be fitted to the Kombi new for 2010
- Both the van and the Kombi are tax friendly both for VAT and for company car tax
Since a van you have only a £3000 tax burden so makes perfect sense
- All Technology pack upgrades are done at your home, by Swiss so you get a better guarantee.
